GENERAL STATEMENT AND SUMMARY

The Committee recommends new budget (obligational) authority of \$2,786,289,000 for the legislative branch for fiscal year 2008. This total is \$289,301,000 below the budget request and \$138,487,000 above the fiscal year 2007 level.

The bill includes \$284,000,000 for the U.S. Capitol Police; \$352,534,000 for the Architect of the Capitol to maintain, improve, and construct buildings and facilities for the Congress; \$510,320,000 for the Government Accountability Office; \$576,949,000 for the Library of Congress; \$138,596,000 for the Government Printing Office; and \$842,031,000 for operations of the Senate.

The Committee expects all agencies to notify the Committee of any significant departures from budget plans presented to the Committee in any agency's budget justifications. In particular, agencies funded through this bill are required to notify the Committee prior to each reprogramming of funds in excess of the lesser of 10 percent or \$500,000 between programs, projects or activities, or in excess of \$500,000 between object classifications (except for shifts within the pay categories, object class 11, 12, and 13 or as further specified in each agency's respective section). This includes cumulative reprogrammings that together total at least \$500,000 from or to a particular program, activity, or object classification as well as reprogramming of FTE's or funds to create new organizational entities within the Agency or to restructure entities which already exist. The Committee desires to be notified of reprogramming actions which involve less than the above-mentioned amounts if such actions would have the effect of changing an agency's funding requirements in future years or if programs or projects specifically cited in the Committee's reports are affected.

The Committee also expects all agencies to submit operating plans for the Committee's approval within 30 days of the bill's enactment.

Legislative Branch Inspectors General.—The establishment under this bill of an office of inspector general for the Office of the Architect of the Capitol helps to enhance governmental efforts to promote integrity and efficiency and to detect and prevent fraud, waste, and abuse in the Architect of the Capitol's programs and activities. A majority of the legislative branch entities have either a statutory or administrative inspector general to conduct and supervise audits and investigations relating to the programs and operations of their entity. The Committee recognizes the benefits of coordination and formal communication between and among the executive branch inspectors general achieved through the structure and activities of the President's Council on Integrity and Efficiency and the Executive Council on Integrity and Efficiency. To achieve similar benefits within the legislative branch, the Committee expects

the legislative branch inspectors general to communicate, cooperate, and coordinate with each other on an informal basis regarding their respective audit, inspection, and investigative activities, as appropriate. The Committee requests that the inspectors general keep the Committee informed of the progress of such communications, cooperation, and coordination.

Budget Justifications.—The Committee directs all agencies in the preparation of their budget justifications beginning in fiscal year 2009, to display clearly policies and assumptions for the development of their requests for programs, projects and activities.

TRANSPARENCY IN CONGRESSIONAL DIRECTIVES

On January 18, 2007, the Senate passed S. 1, The Legislative Transparency and Accountability Act of 2007, by a vote of 96–2. While the Committee awaits final action on this legislation, the Chairman and Ranking Member of the Committee issued interim requirements to ensure that the goals of S. 1 are in place for the appropriations bills for fiscal year 2008.

The Constitution vests in the Congress the power of the purse. The Committee believes strongly that Congress should make the decisions on how to allocate the people’s money. In order to improve transparency and accountability in the process of approving earmarks (as defined in S. 1) in appropriations measures, each Committee report includes, for each earmark:

- (1) the name of the Member(s) making the request, and where appropriate, the President;
- (2) the name and location of the intended recipient or, if there is no specifically intended recipient, the intended location of the activity; and
- (3) the purpose of such earmark.

The term “congressional earmark” means a provision or report language included primarily at the request of a Senator, providing, authorizing, or recommending a specific amount of discretionary budget authority, credit authority, or other spending authority for a contract loan, loan guarantee, grant, loan authority, or other expenditure with or to an entity, or targeted to a specific state, locality, or congressional district, other than through a statutory or administrative, formula-driven, or competitive award process.

For each earmark, a Member is required to provide a certification that neither the Member (nor his or her spouse) has a pecuniary interest in such earmark, consistent with Senate Rule XXXVII(4). Such certifications are available to the public at <http://appropriations.senate.gov/senators.cfm> or go to appropriations.senate.gov and click on “Members”.

The Committee has provided funding for the officers and leadership to enable them to acquire cellular telephone and mobile data devices and services, thereby relieving the Sergeant at Arms of his current responsibility to provide such devices and services. The Committee believes that this will increase accountability and allow the offices greater flexibility in choosing and managing their equipment and services. Further, this treatment is consistent with the

funding for these devices and services for members and committees. Each office should continue to work with the Sergeant at Arms to obtain the necessary devices and services. The Sergeant at Arms will make a certification of the appropriate charges against this account in accordance with the current practice for other Senate offices.

Consultants—Including Agency Contributions.—Provides authority for the appointment and payment of consultants to the majority and minority leaders, president pro tempore, president pro tempore emeritus, and the legislative counsel. The following summarizes the current authority and limitations:

SENATORS' OFFICIAL PERSONNEL AND OFFICE EXPENSE ACCOUNT

Appropriations, 2007	\$365,453,000
Budget estimate, 2008	396,065,000
Committee recommendation	379,065,000

The Committee recommends an appropriation for fiscal year 2008 of \$379,065,000 for the Senators' Official Personnel and Office Expense Account, an increase of \$13,612,000 above the current year and a decrease of \$17,000,000 below the request.

This account funds salaries and benefits of Senators' staffs as well as the office expense allowance for Senators' offices. The Senators' official personnel and office expense allowance [SOPOEA] is comprised of three components. Two of these are for salaries of personnel in Senators' offices.

The allowance for administrative and clerical assistance is based on the population of States, beginning with States with a population of fewer than 5 million people to States with a population of 28 million or more. The table illustrates the allowances per population category and the States which fall into those categories. The estimate for fiscal year 2008 totals \$231,031,870.

The second component of the salaries allowance is for legislative assistance to Senators, as authorized by Public Law 95–94. This allowance provides funding for three positions in each Senator's office at an annual rate of \$160,659 for a total of \$481,977 per office, or \$48,197,000 for all 100 Senators.

The third component of the SOPOEA account is for office expenses and totals \$20,328,942. Each Senator's office is allocated an amount for office expenses, as displayed in the following table. In addition, an amount of \$200,000 is provided to cover additional expenses that may be incurred in the event of the death or resignation of a Senator, and to provide for transitional expenses during election years subject to regulations set by the Committee on Rules and Administration with respect to official mail.

It should be noted that the amounts provided for the various components of the SOPOEA are interchangeable. Amounts provided for salaries may be used for expenses, and vice versa, subject to regulations set by the Committee on Rules and Administration with respect to official mail. It should also be noted that the figures in the following table are preliminary, and that official notification of member budgets is issued by the Financial Clerk of the Senate after enactment of this bill.

The following table illustrates the several components of the SOPOEA.

According to the most recent employment data compiled by the Secretary of the Senate, as of April 30, 2007, there were 4,220 individuals employed in Senators' offices throughout the United States and covered by this appropriation.

In addition to providing funds for compensation of employees within Senators' offices, this appropriation also provides for agency

contributions for those employees; that is, the Senate's share, as an employer, of the various employee benefit programs for which Senate employees are eligible. These payments are mandatory, and fluctuate according to the programs in which employees are enrolled, the level of compensation, and the degree of participation. Budget requests for this account prepared by the Financial Clerk must be based on both experience and evaluation of trends. The fiscal year 2008 request for this account anticipates \$97,074,000 in agency contribution costs.

The amount recommended by the Committee for the SOPOEA is less than would be required to cover all obligations that could be incurred under the authorized allowances for all Senators. The Committee is able to recommend an appropriation of a lesser amount than potentially necessary because Senators typically do not obligate funds up to the absolute ceiling of their respective allowances.

Committee recommendation	9,416,000

The Committee recommends an appropriation of \$9,416,000 for salaries and expenses of the Joint Committee on Taxation. This is an increase of \$643,000 over the enacted level primarily to accommodate cost-of-living increases.

The Joint Committee is established under the Internal Revenue Code of 1986 to: (1) investigate the operation and effects of internal revenue taxes and the administration of such taxes; (2) investigate measures and methods for the simplification of such taxes; (3) make reports to the House Committee on Ways and Means and the Senate Committee on Finance (or to the House and the Senate) on the results of such investigations and studies and to make recommendations; and (4) review any proposed refund or credit of income or estate and gift taxes or certain other taxes set forth in Code section 6405 in excess of \$2,000,000. In addition to these functions that are specified in the Internal Revenue Code, the Congressional Budget Act of 1974 requires the Joint Committee to provide revenue estimates for all tax legislation considered by either the House or the Senate.

The increase accommodates additional staffing requirements associated with the operation of the Capitol Visitor Center. The Committee notes that staffing requirements may exceed original estimates owing to a number of unresolved or developing CVC operational issues. The Committee expects to be apprised of staffing needs as operational decisions are made.

STATEMENTS OF APPROPRIATIONS

The Committee recommends \$30,000 for the preparation of detailed statements of appropriations as required by law. This account is used as payment for the preparation of the volumes, "Statements on Appropriations," for the first session of the 110th Congress. These volumes show annual appropriations made, indefinite appropriations, and contracts authorized, along with a chronological history of regular appropriations bills. The volumes are compiled jointly by the Senate and House Committees on Appropriations pursuant to a directive in the Legislative Appropriations Act of June 7, 1924.

CAPITOL POLICE

	<i>Recommended</i>
Salaries	\$225,930,000
Expenses	58,070,000
Total, Capitol Police	284,000,000

The Committee recommends \$284,000,000 for the U.S. Capitol Police. This is an increase of \$18,365,000 over fiscal year 2007 and a decrease of \$15,070,000 below the request, reflecting more accurate projections of requirements and better management of additional duty hours.

Management Issues.—The Committee notes that the Capitol Police has had longstanding financial management weaknesses. However, recently the Government Accountability Office recognized that progress is being made under the new Chief and his management team. The Committee anticipates USCP will make significant progress this year and stabilize USCP financial management oper-

ations, including the preparation of a complete set of entity-wide auditable financial statements. In addition, the Committee is pleased with USCP's efforts to improve its strategic planning and decisionmaking processes, including holding managers accountable and using performance-based metrics. The Committee expects USCP will continue to work with GAO and its own Inspector General on these activities.

SALARIES

Appropriations, 2007	\$217,135,000
Budget estimate, 2008	237,074,000
Committee recommendation	225,930,000

The Committee recommendation totals \$225,930,000 for salaries, an increase of \$8,795,000 over the enacted level and a decrease of \$11,144,000 below the request. This level will support current sworn staffing of 1,681 officers, and 10 new officers associated with Library of Congress police attrition. In addition, to the current level of 390 civilian staff, the Committee recommendation funds new positions in financial management, security service, information system and facilities management.

The amount provided covers salaries, benefits, and overtime costs. Capitol Police personnel are also eligible for hazardous duty pay and comparability pay similar to locality pay adjustments granted other Federal law enforcement personnel in the Washington, DC, area.

SEC. 1002. USCP GENERAL COUNSEL. This provision transfers the position of General Counsel to the Capitol Police. With the exception of this position, all other sworn and civilian USCP positions, including those reporting directly to the Capitol Police Board, are on the USCP payroll and have been since the USCP payroll migrated from the Senate or House payrolls.

SEC. 1003. TRANSFER OF LIBRARY OF CONGRESS POLICE. Language is included that effectuates the merger of the Capitol Police

with the Library of Congress [LOC] Police mandated by the 2003 Legislative Branch Appropriations Act (Public Law 108–7).

The Committee recommends an appropriation of \$38,510,000 for the Congressional Budget Office. The amount recommended represents an increase of \$3,306,000 over the enacted level.

The Committee has included \$538,000 for CBO to expand its ability to assist the Congress in identifying and analyzing potential ways to address projected growth in health care spending.

ARCHITECT OF THE CAPITOL

The Committee has recommended a funding level of \$352,534,000 for all activities of the Architect of the Capitol. The amount recommended is \$78,554,000 below the request and \$37,487,000 below the fiscal year 2007 level. The Committee has funded projects designated with an immediate urgency. Most other requested projects, unless related to life safety, are not funded owing to budget constraints and the need for AOC to focus on the successful completion of ongoing projects.

The following table shows the request and the Committee recommendation, excluding the House Office Buildings account:

Appropriation	2007 appropriation ¹	Fiscal year 2008 request	2008 recommendation

¹ Including rescission and supplemental appropriations (Public Law 110–28).

Design-build.—The Committee expects AOC to award design-build construction contracts when it is appropriate and cost effective to do so. The Committee notes that this type of contract can result in improved accountability for performance with one organization responsible for both design and construction, and generally results in faster project delivery.

GENERAL ADMINISTRATION

Appropriations, 2007	\$77,128,000
Budget estimate, 2008	87,714,000
Committee recommendation	81,584,000

The Committee recommends an appropriation of \$81,584,000 for general administration, a reduction of \$6,130,000 below the request and an increase of \$4,456,000 above the fiscal year 2007 level. The increase over the current year reflects several long-deferred information technology improvements. A total of \$1,119,000 is included for an energy survey of congressional buildings.

The General Administration appropriation provides funding for salaries and related benefits of the Architect, officers, administrative and support staff, including engineering and architecture employees. This account also provides for administrative items such as agency-wide contractual services; surveys and studies; information technology; and safety engineering operations.

The following table displays the budget detail.

Total, General Administration	87,714,000	81,584,000

Emissions Resulting from Capitol Complex Operations.—The Committee is concerned that there is no comprehensive strategy for reducing emissions that result from the operations of the U.S. Capitol Complex. As GAO recently reported, conducting energy audits of facilities is one important step in such a strategy as these audits would identify projects to address the largest sources of greenhouse gas emissions from Capitol Complex operations. The Committee is pleased that the Architect of the Capitol has developed a schedule for conducting energy audits of all Capitol Complex facilities within the next 5 years. The AOC should also consider other projects that would not be included in energy audits, such as purchasing energy efficient vehicles, that could be instrumental in reducing emissions in the near term. Therefore, the Committee directs the Architect to develop a comprehensive plan for reducing emissions from Capitol Complex operations, with input from others that manage energy consumption within the Capitol Complex. The Architect should submit a plan to the Committee within 120 days of enactment of this act. The plan should address the schedule for and results of energy audits, selection and implementation of emission reduction projects, including those outside the scope of energy audits, and funding resources and options for the audits and projects.

Carbon Capture Technologies. The Committee directs the Architect of the Capitol to utilize the Department of Energy's expertise on measures that will increase energy efficiency at all Capitol Complex facilities. Furthermore, the Committee recommends that the AOC, within existing funds, initiate work with the Department of Energy's Office of Fossil Energy to develop a preliminary engineering design of commercially available CO₂ capture technologies that could be applied at the Capitol Power Plant. The AOC is directed to provide a report to the appropriate committees of jurisdiction within 120 days of enactment of this measure.

ADMINISTRATIVE PROVISIONS

SEC. 1201. ROSA PARKS STATUTE. This provision authorizes the Architect of the Capitol to enter into agreements for the Rosa Parks statue.

SEC. 1202. INSPECTOR GENERAL. The Committee recommends a provision creating a statutory inspector general for the Architect of the Capitol. This is intended to promote integrity and efficiency in AOC programs, and detect and prevent fraud, waste, and abuse.

SEC. 1203. WORKFORCE FLEXIBILITY ACT. This provision enables AOC to provide recruitment, relocation and retention bonuses.

SEC. 1204. FLEXIBLE WORK SCHEDULES. This provision authorizes a 1-year pilot program to test flexible work schedules within the AOC, to aid in recruitment and retention and improve efficiency in certain operations.

SEC. 1205. TRAVEL AND TRANSPORTATION EXPENSES. This provision authorizes AOC to pay the travel and transportation expenses of new employees.

SEC. 1207. CASUALTY AND OTHER INSURANCE FOR EXHIBITS AND WORKS OF ART. This provision authorizes AOC to borrow works of art or exhibits from other entities and insure those items from loss or damage while in his care subject to the notification of the Committees on Appropriations, the Senate Rules Committee, and the House Administration Committee.

SEC. 1208. CVC MAINTENANCE. This provision clarifies that the Capitol Visitor Center is considered a part of the Capitol Building jurisdiction for purposes of facilities maintenance.

LIBRARY OF CONGRESS

The Committee recommends a total of \$576,949,000 for the Library of Congress, an increase of \$68,189,000 over the fiscal year 2007 level and a decrease of \$84,667,000 below the request. Increases are provided to accommodate pay and price level increases. In addition to the appropriation, the Library estimates receipts and reimbursements of \$42,723,000 funds from gifts and trusts totaling \$20,499,000 and revolving funds totaling \$82,453,000. Total funds available to support Library operations, including the Architect of the Capitol account, are expected to be over \$750,000,000 in fiscal year 2008 under the Committee recommendation.

Acquisitions.—The Committee supports the recommendations contained in the December 2006 Inspector General report regarding the Library's Collections Acquisitions Strategy. According to the IG, "the Library acquires a vast quantity of materials, some without any clear connection to researchers' needs. In light of the logistical issues it faces, the Library should be more selective in both the quantity and usefulness of materials it acquires." The Committee agrees with the OIG's premise that "the significant logistical and financial resources needed to acquire, process, store, preserve, and protect collection items dictate that the Library re-evaluate its acquisitions policies." The Committee directs the Library to submit a report within 60 days of enactment of this act, detailing its plans for implementing the IG's recommendations, including a timeline.

Budget Process.—The Committee continues to be concerned with the Library's budget development process. In particular, the Library has not routinely "scrubbed" its "base" budget, effectively set priorities, or developed a budget justification that presents its budget in a transparent fashion. The Committee recognizes improvements in the Library's strategic planning efforts, but believes a better job needs to be done of setting priorities, recognizing budgetary constraints, and linking the budget to performance-based metrics. The Committee supports the recommendations contained in the October 2006 Inspector General report entitled "Performance-based budgeting at the Library: A good start but much work remains." The Committee directs the Library to submit its action plan within 60 days of enactment of this act to implement the IG's recommendations.

To reiterate the language of the fiscal year 2006 Senate report, the Committee directs the Library in consultation with GAO to develop a budget presentation and justification package for the fiscal year 2009 budget cycle that clearly addresses rates and assumptions used in the base as well as a clear description for each program of what drives demand for the program, what the nature of the program's workload is, and what service or outcome each base program is intended to produce. A clear description of new program starts and a detailed break out of rates and assumptions associated with cost estimates for those programs including demand, workload, and outcome should also be provided along with a clear expla-

nation of how each program relates to goals and objectives set forth in the Library's strategic plan. In addition all programs, projects and activities (including "base" funding) should be clearly displayed.

The following table displays the Committee recommendation for the Library of Congress appropriations compared to the budget request and the fiscal year 2007 level.

The Committee recommends an appropriation of \$401,461,000 for salaries and expenses of the Library of Congress and approves authority to spend receipts of \$6,350,000 in fiscal year 2008, for a total of \$407,811,000. This is \$59,641,000 below the request and \$20,214,000 above the enacted level.

The Committee's recommendation reflects revised estimates for payroll costs and the elimination of funding for a new logistics facility and lower priority activities. The Committee recommends \$7,500,000 for the National Digital Information Infrastructure and Preservation Program and \$7,000,000 for the digital collections and educational circular programs. In addition, \$1,000,000 is recommended for the Abraham Lincoln Bicentennial Commission (Requested by Senator Durbin), \$300,000 is included for the digitization of the Theodore Roosevelt papers (Requested by Senator Dorgan), \$250,000 is recommended for the final year of the Middle Eastern Texts Initiative at Brigham Young University (Requested by Senator Bennett), and \$500,000 is included for the University of Mississippi Music Archives project (Requested by Senator Cochran).

The Committee recognizes the extraordinary contribution of David Woodley Packard to the Library of Congress and the Legislative Branch in the new National Audiovisual Conservation Center, a gift valued at over \$200,000,000. This new facility will open in July and will house the Library's film, video and recorded sound collections, totaling more than 3.9 million items.

The Committee recommends the direct appropriation of \$4,906,000 for the Copyright Office and approves authority to spend receipts of \$35,196,000 and prior year unobligated balances of \$10,000,000 in fiscal year 2008, for a total of \$50,102,000. This is \$1,460,000 below the request level.

The Committee's recommendation includes \$1,000,000 to digitally image pre-1978 public records. This 6-year initiative should be clearly displayed in subsequent budget requests rather than becoming part of the "base."

CONGRESSIONAL RESEARCH SERVICE

SALARIES AND EXPENSES

Appropriations, 2007	\$100,786,000
Budget estimate, 2008	108,702,000
Committee recommendation	102,892,000

The Committee recommends an appropriation of \$102,892,000 for the Congressional Research Service. The amount recommended is an increase of \$2,106,000 over the fiscal year 2007 level and is sufficient to cover pay and inflationary increases.

It has come to the Committee's attention that CRS has been holding annual management retreats at expensive off-site locations. In fiscal year 2006, CRS spent \$64,000 on two such retreats. These meetings can and should be held locally, particularly in times of severe budget constraints. The Committee strongly objects to this practice and directs that it be discontinued.

The Committee is also concerned that the Congressional Research Service often acts as if it were an independent agency, separate from the Library of Congress. CRS is in fact part of the Library of Congress, and its policies and procedures should reflect this fact. The Committee expects the management of CRS to conduct its activities in a manner consistent with being an entity within, not separate from, the Library, including the development, justification, and execution of its budget.

BOOKS FOR THE BLIND AND PHYSICALLY HANDICAPPED

SALARIES AND EXPENSES

Appropriations, 2007	\$53,614,000
Budget estimate, 2008	75,623,000
Committee recommendation	67,690,000

The Committee recommends an appropriation of \$67,690,000 for salaries and expenses for Books for the Blind and Physically Handicapped. This is an increase of \$14,076,000 over the fiscal year 2007 level. The Committee recommends \$600,000 for the National Federation of the Blind "Newsline" program (Requested by Senators Landrieu and Vitter) for a telephone-based electronic audio newspaper service; and \$12,500,000 for the Digital Talking Book project.

The National Library Service for the Blind and Physically Handicapped [NLS] has been planning for the transition from audiocassettes to digital books for the blind and physically handicapped communities for over a decade. The Committee notes that the Library's request for funds in fiscal year 2008 is in response to patrons expectations, the great need to improve services, and the fact that cassette technology is nearing obsolescence. NLS, in consultation with the blind community and with assistance from technology experts, has designed digital talking book players with flash memory cartridges for distributing the digital talking books. The Committee fully supports this effort. Funding has been reduced below the request owing to dire budget constraints, but the Committee anticipates fully funding this initiative over the next several years.

This appropriation supports a National Reading Program for blind and physically handicapped citizens. Books and magazines in braille and various recorded formats are produced by the National Library Services for the Blind and Physically Handicapped for distribution through a network of State and locally supported libraries. At present, 57 regional libraries in 49 States, the District of Columbia, the Virgin Islands, Puerto Rico, and Guam house and circulate books and magazines to eligible readers. Seventy-eight subregional libraries in 17 States assist at the local public library level; 53 libraries and 4 cooperating agencies distribute sound reproducers. Two multistate centers, under contract to the National Library Service, store and distribute books and other materials in their geographical regions. The program supports a readership of approximately 700,000.

ADMINISTRATIVE PROVISIONS

SECS. 1301–1302. The Committee has included two routine administrative provisions carried in prior years.

SEC. 1303. Cooperative Acquisitions Program Revolving Fund Audit. The Committee has included language adjusting the requirement for the GAO audit of this revolving fund.

SEC. 1304. Provides authority to transfer funds between Library of Congress account, subject to the approval of the Committees on Appropriations.

GOVERNMENT PRINTING OFFICE

CONGRESSIONAL PRINTING AND BINDING

Appropriations, 2007	\$87,954,000
Budget estimate, 2008	109,541,000
Committee recommendation	95,365,000

The Committee recommends \$95,365,000 for congressional printing and binding. While this is an increase of \$7,411,000 over the fiscal year 2007 level, it is \$14,176,000 below the request. The increase is necessary to fund significant prior-year shortfalls in congressional printing and binding as well as the production of the 2006 edition of the U.S. Code as required by law. These prior-year requirements must be funded or GPO could be at risk of a financial crisis in the coming year. In addition, the amount would accommodate payroll and inflationary increases.

The following table compares the component categories within this account for fiscal year 2008. The Committee has not recommended separate amounts for each activity in order to give GPO the flexibility to meet changing requirements.

CONGRESSIONAL PRINTING AND BINDING

	Appropriations 2007	Requested 2008	Recommended 2008

OFFICE OF SUPERINTENDENT OF DOCUMENTS

SALARIES AND EXPENSES

Appropriations, 2007	\$33,096,000
Budget estimate, 2008	45,613,000
Committee recommendation	38,231,000

The Committee recommends \$38,231,000 for salaries and expenses of the Office of the Superintendent of Documents. This is an increase of \$5,135,000 over the current year and a decrease of \$7,382,000 below the request. The increase is required for costs related to the distribution of the 2006 edition of the U.S. Code, a statutory requirement which occurs every 6 years, as well as payroll and inflationary increases. Owing to budget constraints, the Committee has been unable to fund certain information technology improvements.

This appropriation provides for salaries and expenses associated with the distribution of Government documents to depository and international exchange libraries, the cataloging and indexing of Government publications, and the distribution of publications authorized by law at the request of Members of Congress and other Government agencies.

REVOLVING FUND

Appropriations, 2007	\$1,000,000
Budget estimate, 2008	26,825,000
Committee recommendation	5,000,000

The Committee has recommended \$5,000,000 for the revolving fund, an increase of \$4,000,000 over the current year and a decrease of \$21,825,000 below the request. The amount recommended is for Release 2 of the "Future Digital System" [FDSys]. The Committee recognizes GPO is on the cusp of a major transformation that requires significant resources. According to GPO's concept of operations, FDSys will ingest, preserve, and provide access to the information produced by the U.S. Government and to the material currently in the custody of GPO and Federal depository libraries. The Future Digital System will enable GPO customers to obtain hard copy publications and to electronically access the content they want, and it will enable GPO to deliver that content in the formats its customers desire. Budget constraints have required the Committee to postpone Release 3 of FDSys, as well as other infrastructure initiatives requested by GPO.

Owing to budget constraints, the Committee was unable to recommend funding for other important projects such as the replacement of GPO's 30-year old automated composition system.

GOVERNMENT ACCOUNTABILITY OFFICE

SALARIES AND EXPENSES

Appropriations, 2007	¹ \$489,001,000
Budget estimate, 2008	531,263,000
Committee recommendation	510,320,000

¹ Includes \$374,000 in supplemental appropriations in Public Law 110-28.

The Committee recommends funding of \$510,320,000 for salaries and expenses of the Government Accountability Office, a reduction of \$12,484,000 below the request level. Additionally, \$7,510,000 is authorized in offsetting collections derived from rent receipts and reimbursements for conducting financial audits of Government corporations, for a total of \$517,830,000.

The amount recommended will accommodate 3,221 full-time equivalent employees, as well as uncontrollable pay and price level increases and investments in technology improvements.

Technology Assessment.—The Committee recommends \$750,000 and four full-time equivalent employees to establish a permanent technology assessment function in the Government Accountability Office. The Committee has decided not to establish a separate entity to provide independent technology assessment for the legislative branch owing to budget constraints. In addition, GAO's focus on producing quality reports that are professional, objective, fact-

based, fair, balanced, and nonpartisan is consistent with the needs of an independent legislative branch technology assessment function. The Committee notes that GAO's Center for Technology and Engineering, which led the 2002 pilot program in technology assessment, is staffed by engineers and scientists with experience in systems engineering, software engineering, real-time systems, computer security, cost estimation, and biological technologies.

The Committee directs GAO to define an operational concept for this line of work, adapted from current tested processes and protocols. At a minimum, this capability would require: (1) developing and maintaining relationships with relevant congressional committees to facilitate the selection of technology assessment topics; (2) keeping congressional committees abreast of the results of technology assessments, meeting with Members and staff, and preparing testimony statements for relevant hearings; (3) developing and maintaining relationships with key external experts and organizations to remain informed about emerging technologies and potential related public policy issues; (4) developing, documenting, and refining processes for conducting technology assessments; (5) consulting with independent experts and conducting peer review of reports; (6) developing standards and procedures for issuing technology assessment reports as distinct from their audit products; and (7) developing metrics to measure the value of the technology assessment capability. The Committee directs GAO to report within 60 days of enactment of this act on its operational concept for the technology assessment function.

ADMINISTRATIVE PROVISIONS

Sec. 1401. The Committee recommends language, modeled after the Contracts Disputes Act, authorizing a contract appeals board for legislative branch agencies in GAO. The creation of a single board will eliminate the administrative burden and delays associated with creating a new board each time an appeal involving a legislative branch agency is filed, and will provide predictability and consistency across the agencies in resolving appeals of claims arising under their contracts.

Sec. 1402. The Committee has included language, recommended by GAO, repealing or modifying a number of congressional mandates for GAO audits and reports. Most of the mandates impose recurring requirements on GAO, and no longer yield valuable findings. This work consumes resources that could be applied to GAO work of higher priority to the Congress.

OPEN WORLD LEADERSHIP CENTER TRUST FUND

Appropriations, 2007	\$13,860,000
Budget estimate, 2008	14,400,000
Committee recommendation	13,500,000

The Committee recommends \$13,500,000 as a payment to the Open World Leadership Center Trust Fund. The Center for Russian Leadership Development was established on December 21, 2000 (Public Law 106-554) as a legislative branch entity. The Fiscal Year 2003 Consolidated Appropriation Resolution (Public Law 108-7) carried legislation (section 1401) changing the name to the

Open World Leadership Center and expanding the mission of the program to include Newly Independent States of the former Soviet Union including the Baltic States. The mission of the Center is to enable emerging political leaders of Russia and Newly Independent States at all levels of government to gain significant, first-hand exposure to the American free market economic system and the operation of American democratic institutions through visits to comparable governments and communities in the United States.

**JOHN C. STENNIS CENTER FOR PUBLIC SERVICE TRAINING
AND DEVELOPMENT**

Appropriations, 2007	\$430,000
Budget estimate, 2008	430,000
Committee recommendation	430,000

The John C. Stennis Center for Public Service Training and Development was created by Congress in 1988. The mandate of the Center is to promote and strengthen public service. The Committee recommends the budget request of \$430,000 as authorized by 2 U.S.C. 1105, for the Center's congressional staff training and development programs.

TITLE II

GENERAL PROVISIONS

Included are several routine general provisions carried annually in the bill (secs. 201–208), as follows:

Section 208 prohibits unauthorized transfers of funds to other agencies.

COMPLIANCE WITH PARAGRAPH 7, RULE XVI, OF THE
STANDING RULES OF THE SENATE

Paragraph 7 of rule XVI requires that Committee reports on general appropriations bills identify, with particularity, each Committee amendment to the House bill “which proposes an item of appropriation which is not made to carry out the provisions of an existing law, a treaty stipulation, or an act or resolution previously passed by the Senate during that session.”

The Committee has recommended no such funding.
